## EXPERIENCE

### Bryt Designs, Long Beach, CA — *Front End Developer*

- Assisted colleagues in developing client websites with customizable themes for Wordpress and Shopify
- Worked on QA's for client websites such as polishing pages, bug fixes, and SEO purposes to improve website performance.
- Optimized websites for mobile friendly usage.
- Attended meetings with colleagues and clients for QA's or new projects.

### Independent Front-End Freelancer — *Web Developer*

JANUARY 2020 - PRESENT

- Creates high fidelity mockups for presentations
- Manages content and hosting for clients.
- Designed and created client websites from start to finish using current technologies while optimizing for mobile and browser performance.

## PROJECTS

### Portfolio — <https://hectdev.com/>

- Built with HTML5, SASS, JAVASCRIPT, Rellax.js
- Responsive static portfolio website made to show my current Web Development, Design, and UI/UX

### SLMD + Jed — [slmdskincre.com/pages/slmd-the-jed-foundation](http://slmdskincre.com/pages/slmd-the-jed-foundation)

- Worked with colleagues to develop and optimize the SLMD + Jed Foundation page.
- Reduce the amount of code and use any existing code that we can use for styling or features.

### Sensorex — <https://sensorex.com/>

- Assisted and worked with colleagues in building pages and fixing any back-end errors.
- Added Wordpress theme features for client back-end use.
